**Video Link:** <https://youtu.be/JHXlqeFKfkc>

**VCS:** <https://github.com/GetLawyer/GetLawyer>

## Screenshot:

**Deployment:** the website is not deployed to a remote location, but it can be built/run on a local machine by following the instructions in the README.

### Prerequisites:

- Standard CSCI3308 packages installed
- Python: MySQLdb module installed
- (If building PDF docs): LaTeX and friends

A series of scripts will setup the database, and a web server is run with Python.
